L&T Opens Training Centre At Kanchipuram

Chennai, June 20, 2014: L&T Construction and Mining Machinery has opened an ultra-modern service and training centre for repair of construction and mining equipment at Kanchipuram, near Chennai.

The centre was inaugurated on June 19 by Mr. J.P. Nayak, former member of board, Larsen & Toubro.

“The centre built with state-of-art infrastructure forms an important part of L&T’s product support activities in the construction and mining equipment industry, and provides one-stop solution to customers in southern India. L&T has always been considered as the best service provider in this industry, and I am sure this facility will further strengthen our service capabilities,” said Mr Nayak.

The service centre is spread over an area of 33,500 sq m and houses specialized machinery and exclusive bays to provide service solutions for high-value equipment like dozers, loaders, dumpers and excavators.

This facility is one among the five service centres established by L&T for the construction and mining equipment industry. The others are at Nagpur, Pune, Durgapur and Bahadurgarh (near Delhi).

Background:

Larsen & Toubro is a **USD 14.3 billion** technology, engineering, construction, manufacturing and financial services conglomerate, with global operations. Its products and systems are marketed in over 30 countries worldwide. L&T is one of the largest and most respected companies in India’s private sector. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business over seven decades.
