Larsen & Toubro wins an order in Water Technology Business in Doha, Qatar

Mumbai, May 11: Larsen & Toubro's (L&T) Water Technology Business Unit has secured an international Turnkey project worth QR 691.2 Million (INR 850 Crore) from Public Works Authority, Qatar (ASHGHAL) for Advanced Waste Water Treatment & Urban Reuse.

This project is the largest of its kind in GCC based on an advanced technology "Sequential Batch Reactor (SBR)" followed by "Ultra-filtration". The scope of work includes design, supply, procurement, construction, testing & commissioning of the Doha South Sewage Treatment Works, Phase II expansion.

The project shall be executed on Lumpsum Turnkey basis. The project is scheduled to be operational by 2012.

The technology is provided by ITT Corporation, USA and Construction by Galfar Al Misnad Engineering & Contracting W.L.L, Qatar. The rated Plant capacity will be 92 Million Litres per Day for SBR and 187 Million Litres per Day for Ultrafiltration.

L&T's Capability Spectrum

Larsen & Toubro is a USD 8.5 billion technology, engineering and construction group, with global operations. It is one of the largest and most respected companies in India's private sector.

L&T undertakes turnkey construction of fertilizer, refinery and petrochemical plants; cross-country pipelines and oil & gas terminals covering civil, structural, piping equipment, heavy lifts, electrical and instrumentation work.
