

L&T 4th on LinkedIn's Top Companies India List

MUMBAI: Jumping 19 spots, Larsen & Toubro has been ranked fourth on LinkedIn's 2021 Top Companies List in India. In 2019 L&T was ranked 23.

L&T is the only infrastructure company to feature in the Top 10. The others are IT/e-commerce /consulting organisations.

LinkedIn ranking helps employees identify the top organisations that will help them build a professional foundation that sets them up for success both at the company and beyond. The list celebrates companies with great cultures and the ones that put their employees first and give them opportunities to grow.

LinkedIn judged the companies on seven pillars, each revealing an important element of career progression. The seven parameters include ability to advance, skills growth, company stability, external opportunity, company affinity, gender diversity and educational background.

Several factors contributed to L&T's ranking, but what stood out the most is its handling of the COVID-19 hit. In the pandemic's early days, L&T announced it would not layoff staff, it doubled the health insurance and evacuated those stranded in the Middle East. L&T also has a sharp focus on grooming in-house talent, with most of its directors on the Board being from within the Company.
