L&T Construction Awarded (Significant) contracts for its Water & Effluent Treatment Business

Mumbai, April 19, 2022: The international arm of the Water & Effluent Treatment Business has been awarded a project from a prestigious client to construct and commission water supply schemes for various towns in Tanzania.

The aggregate scope of work comprises design & construction of raw water intake systems, storage tanks, water treatment plants of a total capacity of 71 MLD, 5 clear water reservoirs, pumping stations, 263 km of pipeline and associated electromechanical works.

The project is being funded by the EXIM Bank of India.

In addition, the Business has also secured add-on domestic orders from the Uttar Pradesh State Water & Sanitation Mission to implement various rural water supply projects under the Jal Jeevan Mission to provide Functional House Tap Connections (FHTC) in the state.

Background:

Larsen & Toubro is an Indian multinational engaged in EPC Projects, Hi-Tech Manufacturing and Services. It operates in over 50 countries worldwide. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.
