## L&T Construction awarded (Significant\*) contract for its Heavy Civil Infrastructure Business

### Will build Natural Draught Cooling towers for the Rawatbhata Atomic Power Project

**Mumbai, Aug 10, 2022:** The Construction arm of L&T has secured a significant order from Nuclear Power Corporation of India Limited (NPCIL) for its Heavy Civil Infrastructure (HCI) Business to build natural draught cooling towers and a cooling water pump house for the Rawatbhata atomic power project -7 &8.

The scope involves constructing natural draught cooling towers, cooling water pump houses, erection and commissioning of cooling water pumps, and large diameter cement mortar lined and coated steel pipe (CMLC), the main medium to transport hot water from the turbine to the cooling towers.

The project is scheduled to be completed in 36 months.

#### Background:

Larsen & Toubro is an Indian multinational engaged in EPC Projects, Hi-Tech Manufacturing and Services. It operates in over 50 countries worldwide. A strong, customer-focused approach and the constant quest for top-class quality has enabled L&T to attain and sustain leadership in its major lines of business for eight decades.
