L&T Construction Wins (Significant*) Orders for its Power Transmission & Distribution Business

Mumbai, June 26, 2023: The Power Transmission & Distribution Business of Larsen & Toubro has secured new orders in India and abroad.

In Middle East, the Business has won two orders for the upgrade of Electrical Networks in large industrial facilities. The scope of these orders involves establishing Gas Insulated Substations with associated High Voltage Cable Systems. The Power Transformers and Control & Protection systems are the other crucial elements that will be installed as part of the works.

Such complex projects require proven engineering and project management capabilities to meet the stringent safety, quality and schedule requirements. Secured on the back of demonstrated abilities to manage interface and shutdown related challenges, these orders reflect the customer trust in L&T.

In India, an order for building a 765kV Transmission Line has been received. The Transmission Line will facilitate evacuation of Renewable Energy from the Wind and Solar Energy hub being established around Kurnool in Andhra Pradesh.

Background:

Larsen & Toubro is a USD 23 billion Indian multinational engaged in EPC Projects, Hi-Tech Manufacturing and Services. It operates in over 50 countries worldwide. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.

* Project Classification

Classification	Significant	Large	Major	Mega
Value in ₹ Cr	1000 to 2500	2500 to 5000	5000 to 7000	>7000
