L&T Wins Orders (large*) for Power Transmission & Distribution Business

Mumbai, March 03, 2025: The Power Transmission & Distribution (PT&D) vertical of Larsen & Toubro has won new orders in India and abroad.

In India, it has won an order to implement 765kV and 400kV transmission line segments associated with a Renewable Energy Zone in Uttar Pradesh.

Prior to this, the business secured an order for turnkey construction of a 400kV transmission line, meant for evacuation of power from a non-fossil fuel-based powerplant in southern India.

In Saudi Arabia, it has won order for a 380kV Gas Insulated Substation (GIS). The scope also includes associated Reactors and installation of hybrid GIS Bays.

In Abu Dhabi, the business has received an order for setting up a new 220/33kV grid station, along with associated jobs.

These repeat orders from PT&D's longstanding customers underscore the vital role played by L&T towards setting up efficient grid infrastructure across geographies, and thereby facilitating faster proliferation of renewable energy generation.

Background:

Larsen & Toubro is a USD 27 billion Indian multinational enterprise engaged in EPC Projects, Hi-Tech Manufacturing, and Services, operating across multiple geographies. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.

* Project Classification

Classification	Significant	Large	Major	Mega	Ultra-Mega
Value in ₹ Cr	1,000 to 2,500	2,500 to 5,000	5,000 to 10,000	10,000 to 15,000	> 15,000
